

Dear John,

At long last I have had some copies of the photos of your car at our wedding made up. I have been meaning to do this for some time but have always been too busy!

It was such a special day for us and the Austin Seven made it even more so as it is a car of character and charm. Many of our guests commented on it and I know it gave my father particular pleasure to ride in it.

We hope you are well and we will look out for you and the car when we next visit my parents and visit the Limes.

With many thanks for making our wedding day very special and memorable
Elizabeth Trenchard (nee Collett)
